E Model Series (Pulsarlube E)

1. MANUFACTURER INFORMATION

1) Product Name : E Model Series (E60/EO60, E120/EO120, E240/EO240 etc.)
2) Recommended use of the chemical and restrictions on use
   A. Product description : An electrochemical automatic single point lubricator
   B. Restrictions on use : Not available except the intended use of the product
3) Supplier's details
   Pulsarlube GmbH.
   Silostrasse 31b,
   65929 Frankfurt am Main,
   Germany
   Telephone Number for Information:
   +49 (0) 69-3399-7501
   info@pulsarlube.com

2. HAZARDS IDENTIFICATION

1) Hazard / Risk Classification
   Inhalation
   May be harmful if inhaled. May cause respiratory tract irritation. (Specific target organ toxicity - single exposure (Category 3))
   Ingestion
   Harmful if swallowed. (Acute toxicity, Oral (Category 4))
   Skin
   May be harmful if absorbed through skin. May cause skin irritation. (Skin irritation (Category 2) Eye irritation (Category 2))

2) Label elements
   This product is defined as an "article" based on OSHA definition of an article (c).
   Therefore, this product is exempt from requirement of the Hazard Communication Standard, 29 CFR1910.1200 (HCS 2012), hence a Safety-Data-Sheet is not required in accordance to HCS2012 (b)(6) and the sheets are supplied as a service. This Safety-Data-Sheet contains valuable information critical to the safe handling and proper use of the product.

3) Hazard/precautionary statements
   ○ Hazard/Risk Statement :
     H302 Harmful if swallowed
     H315 Causes skin irritation
     H319 Causes serious eye irritation

   ○ Precautionary Statement
     <Prevention>
     P201 Obtain special instructions before use.
     P202 Do not handle until all safety precautions have been read and understand.
     P280 Wear protective gloves/protective clothing/eye protection/face protection.
P302+P352 IF ON SKIN: Immerse in cool water [or wrap in wet bandages].
P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308+P313 IF exposed or concerned: Get medical advice/attention.

P403+P233 Store in a well-ventilated place. Keep container tightly closed.
P405 Store locked up.

P501 Dispose of contents/containers to … in accordance with local/regional/national/international regulations (to be specified).

3) Other Hazard Risk which are not included in the classification criteria

Comment on component parts

The concentrations of the ingredients are valid for gas generation cell. They are not for the complete system. The structural design prevents release of the hazardous materials (or mixture) contained therein when the unit is used for its intended purpose. Substances of Very High Concern - SVHC: substances are not contained or are below 0.1%. For full text of H-statements: see SECTION 2

4. FIRST AID MEASURES

General advice
Take proper precautions to ensure your own health and safety before attempting rescue and providing first aid. Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

In case of skin contact
Wash skin with soap and copious amounts of water. Consult a physician.

If inhaled
Remove person to fresh air. If signs/symptoms continue, get medical attention. Give oxygen or artificial respiration as needed.
In case of eye contact
Thoroughly flush the eyes with large amounts of clean low-pressure water for at least 15 minutes, occasionally lifting the upper and lower eyelids. If irritation persists, consult a physician.

If swallowed
DO NOT induce vomiting. If vomiting does occur, have victim lean forward to prevent aspiration. Rinse mouth with water. Seek medical attention. Never give anything by mouth to an unconscious individual.

5. FIRE FIGHTING MEASURES

Extinguishing media

Suitable extinguishing media
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment
Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special hazards arising from the substance or mixture
Carbon oxides, Potassium oxides, Hydrogen iodide,

Advice for firefighters
Wear self-contained breathing apparatus for fire-fighting if necessary.

Further information
None

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Use personal protective equipment. Avoid dust formation. Avoid breathing vapors, mist or gas.
Ensure adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust.

Environmental precautions
Do not let product enter drains.

Methods and materials for containment and cleaning up
Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal

Reference to other sections
For disposal see section 13.

7. HANDLING AND STORAGE

Precautions for safe handling
Avoid contact with skin and eyes. Avoid inhalation of vapour or mist and avoid formation of dust and aerosols.

Conditions for safe storage, including any incompatibilities
Store in cool place. Keep container tightly closed in a dry and well-ventilated place.
Hygroscopic. air, light, and moisture sensitive. Store under inert gas.

Specific end uses
no data available

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

(Based on the electrolyte)

Control parameters
○ ACGIH : none
○ biological limit values : none

Appropriate engineering controls
Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

**Personal protective equipment**

**Respiratory protection**
Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.

**Eye protection**
Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

**Hands protection**
Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Body protection**
Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

9. **PHYSICAL AND CHEMICAL PROPERTIES**
Information on basic physical and chemical properties. Described by individual ingredient

1) **Ethylene Glycol**

a) Appearance Liquid, Colourless

b) Odour no data available

c) Odour threshold no data available

d) pH no data available

e) Meting point/freezing point melting point/range: -13°C

f) Initial boiling point and boiling range 196 ~ 198°C

g) Flash point 111°C - closed cup

h) Evaporation rate 1

i) Flammability (solid, gas) no data available

j) Upper/lower flammability or explosive limits
   - Upper explosion limit: 15.3%(V)
   - Lower explosion limit: 3.2%(V)

k) Vapor pressure 0.11 hPa at 20°C
   0.13 hPa at 20

l) Vapor density 2.14 – (Air = 1.0)

n) Water solubility completely miscibles

o) Partition coefficient: n-octanol/water log Pow. -1.36

p) Auto-ignition temperature no data available
2) Potassium carbonate

10. STABILITY AND REACTIVITY
Information on basic stability and reactivities. Described by individual ingredient

1) Ethylene Glycol

Reactivity
no data available

Chemical stability
no data available

Possibility of hazardous reactions
no data available

Conditions to avoid
no data available

Incompatible materials
Strong acids, Strong oxidizing agents, Strong bases, Aldehydes, aluminum

Hazardous decomposition products

www.pulsarlube.com
2) Potassium carbonate

- **Reactivity**: no data available
- **Chemical stability**: no data available
- **Possibility of hazardous reactions**: no data available
- **Conditions to avoid**: Exposure to moisture
- **Incompatible materials**: Acids, Strong oxidizing agents
- **Hazardous decomposition products**: Other decomposition products - no data available

3) WATER

- **Reactivity**: no data available
- **Chemical stability**: no data available
- **Possibility of hazardous reactions**: no data available
- **Conditions to avoid**: no data available
- **Incompatible materials**: no data available
- **Hazardous decomposition products**: no data available

11. TOXICOLOGICAL INFORMATION

Information on basic toxicological properties. Described by individual ingredient

1) Ethylene Glycol

- **Information on toxicological effects**

  - **Acute toxicity**
    - LD50 Oral - rat - 4.700 mg/kg
    - LD50 Dermal - rabbit - 10.626 mg/kg

  - **Skin corrosion/irritation**: no data available

  - **Serious eye damage/eye irritation**
    - Eyes - rabbit - Mild eye irritation - 24 h

  - **Respiratory or skin sensitization**: no data available

  - **Germ cell mutagenicity**: no data available

  - **Carcinogenicity**
    - This product is or contains a component that is probably not carcinogenic based on its IARC, ACGIH, NTP, or EPA classification.

    IARC : No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

  - **Reproductive toxicity**
    - Laboratory experiments have shown teratogenic effects.
Overexposure may cause reproductive disorder(s) based on tests with laboratory animals.

**Specific target organ toxicity - single exposure**
no data available

**Specific target organ toxicity - repeated exposure**
no data available

**Aspiration hazard**
no data available

**Potential health effects**

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**Signs and Symptoms of Exposure**
When ingested, early symptoms mimic alcohol inebriation and are followed by nausea, vomiting, abdominal pain, weakness, muscle tenderness, respiratory failure, convulsions, cardiovascular collapse, pulmonary edema, hypocalcemic tetany, and severe metabolic acidosis. Without treatment, death may occur in 8 to 24 hours. Victims who survive the initial toxicity period usually develop renal failure along with brain and liver damage. Exposure to and/or consumption of alcohol may increase toxic effects.

**Additional Information**
RTECS: KW2975000

2) Potassium carbonate

**Information on toxicological effects**

**Acute toxicity**
LD50 Oral - rat - 1.870 mg/kg

**Skin corrosion/irritation**
no data available

**Serious eye damage/eye irritation**
no data available

**Respiratory or skin sensitization**
no data available

**Germ cell mutagenicity**
Genotoxicity in vivo - rat - Oral
Unscheduled DNA synthesis

**Carcinogenicity**
IARC:
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**Reproductive toxicity**
no data available

**Specific target organ toxicity - single exposure**
Inhalation - May cause respiratory irritation.

**Specific target organ toxicity - repeated exposure**
no data available

**Aspiration hazard**
no data available

**Potential health effects**
Inhalation
May be harmful if inhaled. Causes respiratory tract irritation.

Ingestion
Harmful if swallowed.

Skin
May be harmful if absorbed through skin. Causes skin irritation.

Eyes
Causes serious eye irritation.

Signs and Symptoms of Exposure
To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Additional Information
RTECS: TS7750000

3) WATER

Information on toxicological effects

Acute toxicity
no data available

Skin corrosion/irritation
no data available

Serious eye damage/eye irritation
no data available

Respiratory or skin sensitization
no data available

Germ cell mutagenicity
no data available

Carcinogenicity
IARC:
No component of this product present at levels greater than or equal to 0.1% is identified as Probable, possible or confirmed human carcinogen by IARC.

Reproductive toxicity
no data available

Specific target organ toxicity - single exposure
no data available

Specific target organ toxicity - repeated exposure
no data available

Aspiration hazard
no data available

Potential health effects
Inhalation May cause respiratory tract irritation.

Signs and Symptoms of Exposure
To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Additional Information
RTECS: ZC0110000

12. ECOLOGICAL INFORMATION
Information on basic ecological properties. Described by individual ingredient

1) Ethylene Glycol
**Toxicity**

Toxicity to fish
- LC50 - Oncorhynchus mykiss (rainbow trout) - 18.500 mg/l - 96 h
- LC50 - Leuciscus idus (Golden orfe) - > 10.000 mg/l - 48 h
- NOEC - Pimephales promelas (fathead minnow) - 32.000 mg/l - 7 d
- NOEC - Pimephales promelas (fathead minnow) - 39.140 mg/l - 96 h
- Toxicity to daphnia and other aquatic invertebrates
  - EC50 - Daphnia magna (Water flea) - 74.000 mg/l - 24 h
  - NOEC - Daphnia - 24.000 mg/l - 48 h
- LC50 - Daphnia magna (Water flea) - 41.000 mg/l - 48 h

**Persistence and degradability**

no data available

**Bioaccumulative potential**

Does not bioaccumulate.

Bioaccumulation
- other fish - 61 d -50 mg/l
- Bioconcentration factor (BCF): 0,60

**Mobility in soil**

no data available

**Results of PBT and vPvB assessment**

no data available

**Other adverse effects**

no data available

2) Potassium carbonate

**Toxicity**

Toxicity to fish
- LC50 - Pimephales promelas (fathead minnow) - < 510 mg/l - 96 h

**Persistence and degradability**

no data available

**Bioaccumulative potential**

no data available

**Mobility in soil**

no data available

**Results of PBT and vPvB assessment**

no data available

**Other adverse effects**

no data available

3) WATER

**Toxicity**

no data available

**Persistence and degradability**

not applicable

**Bioaccumulative potential**

no data available

**Mobility in soil**

no data available

**Results of PBT and vPvB assessment**

no data available

**Other adverse effects**
13. DISPOSAL CONSIDERATIONS

Product
Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

Contaminated packaging
Dispose of as unused product

Above all, dispose of in accordance with all applicable federal, state and local regulations.

14. TRANSPORT INFORMATION

UN number
ADR/RID: - IMDG: - IATA: -

UN proper shipping name
ADR/RID: Not dangerous goods IMDG: Not dangerous goods IATA: Not dangerous goods

Transport hazard class(es)
ADR/RID: - IMDG: - IATA: -

Packaging group
ADR/RID: - IMDG: - IATA: -

Environmental hazards
ADR/RID: no IMDG Marine pollutе: no IATA: no

Special precautions for user
no data available

15. REGULATORY INFORMATION

REGULATORY INFORMATION
This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

Safety, health and environmental regulations/legislation specific for the substance or mixture
no data available

Chemical Safety Assessment
no data available

Further information

Pulsarlube has prepared copyrighted Product Safety Datasheets to provide information on the different Pulsarlube automatic grease lubricator systems. As defined in the text above, Pulsarlube automatic grease lubricators are manufactured articles, which do not result in exposure to a hazardous chemical under normal conditions of use. The information and recommendations set forth herein are made in good faith, for information only, and are believed to be accurate as of the date of preparation. However, Pulsarlube USA, Inc. makes no warranty, either express or implied, with respect to this information and disclaims all liability from reference on it.
